GENERAL ACADEMICS AT A COLLEGE/UNIVERSITY

American University

- Grades 9-12
- This summer, take advantage of the opportunity to learn professional skills from American University's expert faculty! You will use Washington, D.C. as your classroom and laboratory for our experiential learning courses in communication, international studies, and politics. Get to know what AU has to offer, and discover your passion!

Babson College

- Grades 10-11
- Babson's Summer Study is a residential program for rising high school juniors and seniors that gives you real-world experience while building your business knowledge and entrepreneurial skills.

Boston University

- Grades 9-12
- We invite you to choose from our portfolio of exciting and challenging summer high school programs. Each program offers the opportunity to explore new subjects and college life—while making friends with fellow students and participating in social activities in Boston and on campus. Join other motivated high school students from 50 states and 87 countries to experience a great introduction to college life and academics.

Brandeis University

- Grades 10-12
- In the spirit of Brandeis University's tradition of excellence, Brandeis Precollege Programs offers outstanding residential experiences for exceptional high school students from around the world. We provide students with the opportunity to explore academic and artistic pursuits in connection with a diverse body of individuals who share their commitment to building a global community.

Brown University

- Grades 9-12
- Experience college, prepare for academic success, and make new friends from around the world in Brown Pre-College Programs. Throughout the summer Brown offers multiple sessions one to seven weeks in length, and more than 300 courses to choose from – on campus, online, and abroad.

[Bucknell University](#)

- Grades 11-12
- At the Bucknell Academy Summer Experience (BASE), rising high school juniors and seniors spend a week living like a college student. You'll stay in our residence halls, attend classes taught by Bucknell professors and develop problem-solving skills designed to help you make an impact on the world. BASE participants join Bucknell faculty and students to find innovative solutions to pressing issues.

[UCLA](#)

- Grades 9-12
- During the summer, UCLA welcomes high school students to receive a comprehensive and immersive study of your chosen subject in one to three weeks. Through co-curricular components including hands-on projects and performances, field visits, and guest lectures, you will have an educational experience that goes beyond classroom instruction.

[UCLA Game Lab Summer Institute](#)

- Grades 9-12
- The UCLA Game Lab Summer Institute introduces high school students to game-making as a form of artistic practice, teaching them the techniques and tools that will help them develop analog and digital games that reflect their own creative voice and vision. No previous game-making skills are required, but students with an interest in games and in the visual arts, in particular, will find the curriculum especially stimulating and rewarding. Students in the program develop a solid aesthetic and technical foundation in various aspects of game design—but just as importantly, they begin learning how to express their own, personal ideas through game-making and game art.

[UC San Diego](#)

- Grades 9-12
- Summer Springboard invites ambitious high school students to join us for a two-week summer program on the campus of the University of California, San Diego. As a top-10 U.S. public university, UCSD gives students an up-close look at a world-class institution while offering opportunities to grow through college prep workshops, academic excursions, and the True You personal development program.

[Carleton College](#)

- Grade 10
- Carleton College is honored to host an inspiring summer program designed for the best and brightest college-bound students representing high schools across the country. The Carleton Liberal Arts Experience (CLAE) will select 52 high school students who have just completed their sophomore year and bring them to Carleton, all expenses paid, for a one-week summer program. The CLAE program introduces the strengths of a liberal arts education through an array of courses in science, art, social sciences, and technology.

[Carnegie Mellon University](#)

- Grades 10-11
- Our summer Pre-College programs will show you what life at Carnegie Mellon is all about, from the classroom to what's happening on weekends. You'll meet people from all over the world, be inspired by our world-renowned faculty, take part in the excitement of campus and have the opportunity to explore the city of Pittsburgh.

[University of Chicago](#)

- Grades 9-12
- The University of Chicago's Summer Session brings together a global community of thinkers who are excited by interesting questions and seek to engage new ideas. Discover diverse program opportunities designed to challenge and engage curious high school students across a variety of subject areas and disciplines. Pre-college students are given the chance to take intellectual risks, dive more deeply into subject matter, and discuss questions that go beyond the realm of their high school curriculum, while experiencing a dynamic campus situated in scenic Hyde Park in the city of Chicago during the best season of the year — summer!

[Columbia University](#)

- Grades 9-12
- Take an intensive course especially designed for outstanding high school students, attend Columbia University classes with undergraduate students, or live and study in Barcelona or Jordan for three weeks.

[The Cooper Union](#)

- Cooper Union offers high school summer programs in STEM and art such as: Summer Stem Program, Summer Writing Program, Summer Art Intensive, and Introduction to Architecture.

[Cornell University](#)

- Grades 10-12
- The award-winning Summer College Programs for High School Students offer talented high school sophomores, juniors, and seniors the opportunity to study at Cornell for three or six weeks, earn an average of three to six college credits, take college courses with leading Cornell faculty members, explore careers and majors, attend admissions workshops, and much more.

[University of Delaware](#)

- Grades 10-11
- The Edge summer college program at the University of Delaware offers exclusive opportunities to engaged and talented high school sophomores and juniors across the country. Students have the chance to live and learn on one of the most engaging college campuses on the East Coast. By emphasizing academic excellence, practical skill building and student leadership, the Edge program offers you the challenge, independence and excitement of a learning experience that can only be found at a top national university.

[Drew University](#)

- Grades 11-12
- Rising high school juniors & seniors can choose from a variety of courses including Anthropology, Business, Computer Science, English, Environmental Science, History, Mathematics, Marketing, Public Health, Psychology, Statistics and Theatre. They'll attend online college classes alongside other college students.

[Drexel University](#)

- Grades 9-12
- Drexel's summer academic programs are open to highly motivated high school students who wish to explore what a university-level program is all about. Workshops are led by Drexel faculty and utilize Drexel's labs, facilities, and the city of Philadelphia's many resources.

[Duke University](#)

- Grades 9-12
- We invite you to imagine yourself at Duke this summer if you are seeking to gain academic credit from renowned Duke faculty or to learn to be a leader and global citizen through personal enrichment courses; hoping to spend your summer enjoying residential activities such as ball games, outlet shopping, dances, talent shows, and more; excited to prepare for college and create an international network of peers.

[Emerson College](#)

- Grades 9-12
- The Pre-College program offers challenging and intensive summer experiences with flexible durations of one, three, or five weeks. These programs are structured to be both fun and highly educational, focusing on teaching students competitive, practical skills within one specific academic area of communication and the arts.

[Emory University](#)

- Grade 10-11
- The Emory Pre-College Program gives college-bound rising juniors and rising seniors an exciting glimpse of academic and residential life at a top-ranked national university. High school students may explore topics with professors who are the leading experts in their fields, enroll in classes with college students, and earn transferable college credit.

[Fordham University](#)

- Grades 11-12
- Fordham University is pleased to offer a wide range of opportunities for high school students who want to challenge themselves and gain college experience this summer. Our program offers diverse courses in various formats and fields, including STEM, humanities, social sciences, business, and the arts. Credit and non-credit options are available so that you can have exactly the kind of summer experience you want.

[Georgetown University](#)

- Grades 9-11
- Live on campus, attend classes side-by-side with college students, and learn from distinguished faculty and prominent Washington, D.C., area guest speakers.

[George Washington University](#)

- Grades 9-12
- We offer a variety of on-campus courses during the summer, as well as study abroad opportunities, in-depth institute courses, flexible online and evening classes and programs for visiting international and high school students.

[Gettysburg College](#)

- Grades 10-12
- Rising high school sophomores, juniors and seniors attending a Gettysburg College week-long summer camp will experience an immersive learning environment, welcoming atmosphere, and historic yet contemporary campus setting. Each program is led by subject-matter experts – Gettysburg College faculty, staff and students. Subjects include Psychology, Creative Writing, Eisenhower Institute's Civil Engagement or Civil War Era Studies as well as a variety of sports camps.

[Hampshire College](#)

- Grades 11,12
- Experience Hampshire College while you're still in high school. Get a sense of our innovative approach to learning and what life is like on Hampshire's campus during our two-week precollege sessions every summer in July. Precollege participants live in the dorms, eat in the dining commons, and are immersed in rigorous and exciting fields of study. Led by current Hampshire faculty, recent graduates, and experienced alumni, our precollege programs are intended for rising high school juniors and seniors.

[Harvard University](#)

- Ages 15-18
- Our summer programs for high school students are designed to prepare you for that all-important next step—both academically and socially—paving the way for a successful college experience. Here, you will expand your worldview, meet new people from all over the globe, test-drive potential majors, gain valuable knowledge and skills, and

explore Boston—one of America’s most vibrant and historic cities—amid a community of supportive peers and advisors.

[Ithaca College](#)

- Ages 15-18
- In Ithaca College's residential pre-college summer program, high school students experience college life and college-level courses while living in a safe environment. The Summer College for High School Students has two program offerings, each with courses designed and reserved expressly for pre-college students.

[Johns Hopkins University’s Center for Talented Youth](#)

- Grades 9-12
- CTY's summer programs offer bright students the opportunity to engage in challenging academic work in the company of peers who share their exceptional abilities and love of learning. While the focus is on rigorous academics and learning, the social experience that results from bringing these students together is an integral part of the program.

[Manhattan University](#)

- Grades 9-12
- Manhattan University pre-college programs provide high school students with a unique opportunity to explore their academic interests, build lasting friendships, experience campus life, and discover the iconic landmarks of New York City. Start your university journey and immerse yourself in the college experience.

[Marist College](#)

- Grades 11-12
- Expand your academic and creative aspirations this summer at Marist College. Students entering their junior and senior year of high school as of this summer are invited to attend one of the Summer Institutes at Marist College. You'll learn from experienced professionals and talented faculty, while spending two to four weeks in your choice of location: the heart of the historic Hudson River Valley, the birthplace of the Renaissance, or both!

[UMass Amherst](#)

- Grades 9-11
- Pre-college programs at UMass combine all the major elements of college, including great academics, living in a residence hall, and eating in our award-winning dining commons. Of course, it takes a little help to adjust to life on a college campus, so we have great live-in program assistants who are specially trained to help you get used to a

new environment, both geographic and social. We have lots of great events in the evenings and on weekends that help you connect with other pre-college students.

[Miami University Ohio](#)

- Grades 11,12
- The Summer Scholars Program provides a rich, early college experience for academically-talented rising high school juniors and seniors from across the globe. Students will join an engaged community of learners for an intense, two-week program in which they participate in challenging, immersive academic modules centered on a specific topic or area of interest. Students will reside in a "living-learning" community with other Summer Scholars participants and get a real preview of college life — live in a residence hall, eat in our award-winning dining halls, and enjoy campus facilities such as our Recreational Sports Center and Goggin Ice Center. Special workshops on the college admission process, ACT/SAT test preparation and how to write the best college essay will be offered. Students will receive priority consideration for merit scholarships and for selection to top programs such as the University Academic Scholars Program, and the University Honors Program.

[The New School](#)

- Grades 9-12
- Develop a talent or advance in study while experiencing life in a university setting. Students leave prepared to enter top art and design, performing arts, or liberal arts colleges; gain greater confidence in their strengths and abilities; and make connections that last for life.

[NYU](#)

- Grades 9-12
- Six-week, one-week and everything in between, NYU's varied array of high school programs offer flexibility and options that can be tailored to your individual needs and schedule. Application processes, requirements and deadlines are varied; as are housing and financial aid offerings. Be sure to visit each specific website to see which program is right for you.

[Northeastern University](#)

- These pre-college programs are designed for talented high school students in the U.S. and around the world who want to give themselves an edge. We offer a choice of innovative programs led by Northeastern's internationally acclaimed faculty. Accelerate programs are hosted on our campuses, allowing you to experience true collegiate learning in a world-class environment.

[Northwestern University](#)

- 15-17 years old

- High school students can get a taste of Northwestern academics and athletics through the College Preparation Program, Center for Talent Development, National High School Institute, Wildcat Sports Camps and more.

[University of Notre Dame](#)

- Grades 10-12
- Notre Dame Pre-College delivers a true college experience on campus, abroad, and virtually for exceptional high school students. Students engage with dynamic Notre Dame faculty in exciting and challenging college level classes, grow in leadership through service, and connect with like-minded students from around the world.

[University of Pennsylvania](#)

- Grades 9-11
- Penn delivers the challenge of an Ivy League curriculum to academically talented high school students seeking a pre-collegiate experience. Explore Penn's historic campus, engage with leading faculty and build intellectual connections with accelerated three- or six-week Penn Summer High School Programs.

[Quinnipiac University](#)

- Summer is the best time to accelerate progress toward achieving your academic, professional and personal goals. This is why Quinnipiac is offering a growing list of engaging summer programs, camps, undergraduate courses and more. All are designed to help a diverse group of people of all ages explore their passions supported by our faculty, staff and students across all eight schools and the College of Arts and Sciences.

[Rensselaer Polytechnic Institute](#)

- Grades 10-11
- Since 1978, PREFACE has provided a pre-college introduction to the different types of engineering, allowing students to understand what engineers do and what it takes to become an engineer. PREFACE students are exposed to today's global challenges and learn to use engineering design and manufacturing processes to develop possible solutions.

[University of Rochester](#)

- Grades 9-12
- At the University of Rochester, students pursue only what they're interested in. With Rochester's Pre-College Programs, high school students get that same freedom. For over 25 years, these programs have welcomed students from around the globe to explore the University and its resources to broaden their educational experience, sharpen academic skills, and help them learn more about who—not just what—they want to be.

[The Rockefeller University](#)

- Ages 16+

- Our goal is to engage students with hands-on, mentored science and to run workshops to provide teachers with the tools they need to instill a passion for science in their students.

[Rutgers University](#)

- Grades 9-12
- Take your future to the next level over the summer! Rutgers–New Brunswick Pre-College Summer Programs are designed for motivated high school students to explore their academic interests and experience college life. Students can choose from non-credit or credit academic programs.

[Skidmore College](#)

- Grades 10-12
- By enrolling in the Pre-College Program, high school students get a head start on college life by living and learning with other exceptional students from across the country and around the world. Taking on the demands of college-level study, compressed into five weeks, is challenging for any student. For this reason, we encourage Pre-College students to study what they want to study, not so much what they think they ought to study. Choose a class in an area where your strengths lie, or delve into an unexplored subject to challenge your perceptions and discover new fields of knowledge. When you pave your own path, you're bound to connect different ideas, fields and ways of thinking in new and innovative ways.

[Smith College](#)

- Grades 9-12
- Experience precollege programs that offer limitless ways to explore the world. You will join more than 200 other high school girls who want to pursue their academic interests in and out of the classroom, strengthen their college applications and meet other motivated and ambitious college-bound young women. Designed by Smith's professors and staff, the program not only gives you an inspiring learning experience, you also earn a recommendation from Smith faculty to use in your college applications. Inside the classroom, a hands-on, collaborative learning environment lets you directly engage with world-class scholars who help you pursue your passions and develop new skills. Outside the classroom, enjoy Smith's beautiful setting, live in a house on campus, make new friends and have a great time joining in on lots of fun activities.

[Stanford University](#)

- Ages 16-19
- Stanford High School Summer College is a selective program that grants high-achieving students access to Stanford University undergraduate courses. This program offers an eight-week college experience that provides academic, social, and intellectual opportunities not found in a high school classroom. High School Summer College participants enroll as visiting undergraduates in Stanford's Summer Quarter and take the same courses, taught by Stanford faculty members, as matriculated Stanford students.

[Stevens Institute of Technology](#)

- Grades 11-12
- What distinguishes our pre-college programs from others is that you get to *create* something from start to finish: a business plan, a video game, an investment portfolio, a short animation. Yes, you'll leave with a stronger college application, you'll try out a potential major, get a taste of what campus life is really like and make some new friends.

[Syracuse University](#)

- Grades 9-11
- Summer College has been a part of Syracuse University for more than 50 years. We're excited to be able to work with incredible students, talented faculty, and passionate staff members. While the central Summer College office has just a few members, we work extensively with offices and departments across campus to ensure that the student experience is safe, fun, and positive.

[Tufts University](#)

- Grades 9-12
- You are a talented, motivated pre-college student on the path to success. Tufts Summer Study is a selective program that offers high achievers like you the chance to take college level courses, specialized programs, and prep classes that get you ready for the college application process. You'll work closely with seasoned professors immersed in a community built around academic excellence.

[Vanderbilt University](#)

- Grades 7-12
- This residential academic experience provides qualifying students with a taste of college life. As a VSA student, you will live on campus and take accelerated courses with Vanderbilt professors, lecturers, and graduate students. Outside the classroom, our carefully selected residential staff members supervise the dining and residence halls, plan fun and engaging recreational activities, and help ensure that every VSA student has a fulfilling experience.

[Wake Forest University](#)

- Grades 9-12
- The Wake Forest University Summer Immersion Program offers students the chance to dive deep and explore a particular field of study. Those selected for the program will enjoy access to world-class faculty, resources, industry professionals and a one-of-a-kind view from inside a career field. The Wake Forest Summer Immersion Program illuminates Wake Forest's value and visibility and shows high school students the impact a single week can make on their lives.

[Washington University in St. Louis](#)

- Grades 9-12

- Whether students choose to attend a for credit or noncredit Summer Experience the benefits are the same. Students gain invaluable experience managing time, studying for exams, writing papers, and collaborating with peers. Our dedicated staff is available 24/7 to provide academic and emotional support to enable student academic success. We have many resources in place to assist our students in their studies.

[Wentworth Institute of Technology](#)

- Grades 10- 11
- At Wentworth Institute of Technology, we have developed a pre-college experience called ImpactLab. This is a two-week residential summer program that gives you a hands-on opportunity to explore a profession. Do you want to help the world with engineering solutions? Design solutions? Scientific solutions? ImpactLab is a head start on figuring out what you want to do with your life. AND, best of all, it's two weeks living and collaborating with new friends who share your concerns—and your fascinations. Problem solvers like you.

[College of William and Mary](#)

- Grades 10-12
- Our faculty and facilities are a rich educational resource for the entire community. We invite pre-college students from all backgrounds to discover the excitement of college-level academics through a wide variety of pre-college programs.

[University of Wisconsin](#)

- Grades 10-11
- Students take courses with experienced college students and establish an official UW–Madison transcript. Summer Term courses are taught at an accelerated pace, so students should be ready to take responsibility for their academic plans and performance.

[Worcester Polytechnic Institute](#)

- Grades 10-12
- The Launch program will leverage research and technology to find solutions to current problems in a variety of scientific fields alongside WPI's renowned faculty. Launch is offered as a commuter program where students will be able to step into the shoes of a video game designer, computer programmer, crime scene investigator, robotics engineer, and more! Please see the program details for more information regarding format.
- The Frontiers program, running for over 40 years, is a residential, overnight program for rising 10th, 11th and 12th grade students who want to explore STEM through a collegiate lens, and prepare for their own collegiate journey. Students will be challenged to explore the outer limits of their knowledge in STEM and explore unsolved global

issues, along with a touch of humanities through another aspect such as business entrepreneurship, digital painting, psychology, and more.

VISUAL & PERFORMING ARTS

[Academy of Art University](#)

- Grades 10-12
- A six-week intensive program offering up to four classes either online or in San Francisco where students get a glimpse into college life, meet other young artists and explore a variety of art & design fields.

[AMDA High School Conservatory](#)

- The AMDA High School Conservatory is an immersive program that provides extraordinary performing arts training for passionate artists. This program offers cutting-edge learning opportunities that are uniquely personal and specifically designed for today's emerging performing artists. The High School offers three programs featuring pre-college training with world-class faculty, performing arts-centered cultural experiences, audition opportunities for college and High School Conservatory programs, and a final original presentation for family and friends.

[Berklee College of Music](#)

- Ages 15+
- Join us and musicians from more than 70 countries for the summer of a lifetime. The focus is on you and what you want to say with your music in an environment that is pure performance. Come immerse yourself in your chosen style and study with world-class faculty and visiting artists in state-of-the-art facilities. You'll play in ensembles, develop improvisational and reading skills, and improve your technique in weekly private lessons.

[California College of the Arts](#)

- Grades 10-12
- CCA's Pre-College Program is an exciting opportunity for high school students to study art, architecture, design, or creative writing in an art-school setting. Our program provides a perfect platform to expand your knowledge, grow as an individual, develop strong portfolio pieces, and get a taste of college life.

[Christie's Art Now](#)

- Art Now offers an exciting insider's look at the fast-paced contemporary art world of today. Students go behind the scenes at one of the world's preeminent auction houses and enjoy lectures and expert guided visits to galleries, private collections and world-class museums.

[Columbus College of Art and Design](#)

- Grades 10-12
- You'll be able to experience any of our majors as you participate in classes, workshops and activities all taught by our talented faculty and staff. In and out of the classroom, you'll have opportunities to meet and collaborate with other emerging artists and designers from all across the country. You'll live in one of our residence halls, experience campus and the Columbus community — just like a full-time student.

[Cow House Studios, Ireland](#)

- Ages 15-18
- Art on the Farm presents a unique opportunity to study drawing, painting, photography and new media alongside practicing visual artists in a focused and intimate studio environment.

[Denison Summer TUTTI](#)

- Ages 15-18
- Summer TUTTI Performing Arts Camp at Denison University offers talented high school dancers, musicians, and theatre-makers a chance to deepen their skills while collaborating with professional artists, ensembles and peers from across the country.

[Fashion Institute of Technology](#)

- Grades 9-12
- The Fashion Institute of Technology's Precollege Programs provide students with experiential learning opportunities, and offers parents, K-12 educators and youth organizations an insightful lens into FIT's majors and the wide-ranging industries FIT serves. Precollege Programs prepares students for the FIT admissions process, including creative arts portfolio development, and features the unique experience of being part of FIT's dynamic and diverse college campus and the cultural vibrancy of New York City that informs and enriches the college, its history and its campus community.

[University of Michigan; School of Art and Design \(STAMPS\)](#)

- Grades 9-11
- STAMPS Pre-College Programs include non-residential, afternoon Spring Studios and two and three-week Summer Residential Studios. Our programs offer portfolio-building courses in art and design, training from STAMPS faculty, and an up-close look at life on the campus of the University of Michigan.

[Parsons Paris](#)

- Grades 9-12

- Want to delve into the world of fashion before you decide what you'll study in college? Parsons Paris has created online courses for students to introduce you to this vibrant field. Taught by experts in Paris fashion through video lectures, courses cover everything from business, history, and trends to actual design methods and potential careers. Multi-length courses are available year-round. The asynchronous, online format allows you to study anywhere, anytime, at your own pace. You will also receive valuable guidance from Parsons' mentors.

[Pratt Institute](#)

- Grades 10-12
- Students choose a major focus modeled after Pratt's undergraduate offerings. To complement this chosen major, students are automatically enrolled in foundation, art history, and portfolio development classes. Upon completion of the program, students earn four elective college credits.

[Purchase College](#)

- Grades 9-12
- The precollege programs in the arts at Purchase College are for high school students who are passionate artists and/or have an interest in pursuing the arts on a college level. These programs provide portfolio building and audition training technique opportunities. Students may earn certificates based on participation and attendance.

[Rhode Island School of Design](#)

- Grades 10-11
- Master a range of tools, materials and techniques. Study with award-winning faculty in our art studios. Create supplementary pieces for your college admission portfolio. Forge the kind of friendships that last a lifetime.

[SCAD](#)

- Grades 9-12
- This summer, explore new avenues of artistic development and spark your imagination at The University for Creative Careers. SCAD offers summer programs for high school students of all ages to pursue art and design disciplines while working alongside peers from all over the world. With exceptional buildings, extensive equipment and inspirational settings, SCAD summer programs offer ideal opportunities for artists at all levels to create, learn and grow.

[School of Visual Arts](#)

- Grades 9-12
- Summer Pre-College is an intensive three-week program that provides the experience of attending art school in the heart of New York City. Students are immersed in their chosen field of study through unique studio projects and instruction from SVA's

award-winning faculty. Classes are taught Monday through Friday from 9am - 4pm and take place in SVA facilities. The program is further enhanced by a robust offering of evening and weekend chaperoned activities and events that take full advantage of the social and cultural life of New York City.

LANGUAGE

Middlebury

- Grades 9-12
- The Academy is an enriching program for motivated high school students who want to accelerate their language skills, while enjoying a pre-college summer camp experience with other like-minded teens. Language immersion can be challenging, but choosing to spend a summer learning a language at the Academy offers a number of tangible benefits.

WRITING/JOURNALISM

Bard College

- Grades 9-11
- Unlike conventional workshops in expository and creative writing, Simon's Rock's focuses on using informal, playful, expressive writing as a way to strengthen skills of language and thinking. Out of these informal writing activities, using techniques of peer response, students develop more polished pieces, ranging from personal narratives to stories, poems, and exploratory essays.

Boston University Summer Journalism Academy

- Students ages 14-18
- The Summer Journalism Academy at Boston University gives students the opportunity to expand their skills and prepare for college, either through a residential experience on campus or through remote instruction from home. Each academy instructor is also a working journalist, so what's taught is grounded in real-life experience. Each lesson is tied to its practical application, by giving students actual reporting assignments. Each day is a sample of life as a news reporter.

CSPA High School Journalism Workshop

- The CSPA Workshop is the longest-running and most successful high school journalism workshop in the country. Our graduates have gone on to work for the Los Angeles Times, the Orange County Register, Forbes, The Associated Press, ESPN, CBS, Fox and other nationally recognized media outlets. Each summer, 25 students are selected to receive hands-on instruction in the areas of print, broadcast, online and photo journalism, plus

classes in ethics, public records and more. They will tour the local newspaper office and television station and enjoy an afternoon at the beach.

[Sarah Lawrence](#)

- Grades 9-12
- Pre-College programs at Sarah Lawrence College provide creative and academic immersion into subject areas that represent the strengths and talents of our faculty and undergraduate offerings, making the experience of study and creation at Sarah Lawrence accessible to pre-college students. Each program is designed to meet students at their current talent and skill level, and to help them develop and grow through individualized attention and the creation of original work. Residential options give pre-college students a taste of living on a college campus, while non-residential options offer scheduling flexibility.

[The School of The New York Times](#)

- Grades 9-12
- Structured around two-week courses that draw on the expertise and unrivaled access of The New York Times, this unique summer program encourages students to take their learning beyond the classroom and into the world. Working with award-winning journalists from The Times and expert practitioners from across the city, students will explore their passions and learn firsthand how ideas take shape, forming the industries of today and the creative enterprises of tomorrow.

[Princeton University](#)

- Grade 11
- We welcome 35-40 high school students from low-income backgrounds every summer to Princeton's campus for an intensive, 10-day seminar on journalism. The program's goal is to diversify college and professional newsrooms by encouraging outstanding students from low-income backgrounds to pursue careers in journalism. All expenses, including students' travel costs to and from Princeton, are paid for by the program. Students who attend the program come from across the country. The program will take place from August 3 to August 13.

[Writopia Lab](#)

- Grades 9-12
- Writopia Lab fosters joy, literacy, and critical thinking in children and teens from all backgrounds through creative writing.

[Reynolds Young Writers Workshop at Denison](#)

- Grades 10-11
- The Reynolds Young Writers Workshop at Denison is an energizing eight-day program for motivated high school students (rising juniors and seniors) who love to write. For nearly 30 years, the Reynolds Workshop has brought together young writers who are passionate about writing and eager to connect to a close-knit community of writing

friends. The workshop is held each June on the beautiful campus of Denison University, a leading liberal arts college, in the village of Granville, Ohio.

STEM/MEDICINE

2Sigma School

- Study a full year of computer science with Summer of Code. This summer, do something that can change your life! Computer science can give an upwards inflection to your life and career, even if you don't want to become a computer scientist. Take an accredited, project-based course with a live teacher.

AI Camp

- Learn AI in small classes online with our instructors. Six students max per instructor. Build an impressive AI product for your college admission portfolio in the summer. Speak with at least three guest speakers who are professional AI practitioners. Experience various tech roles and learn how to make informed career decisions. Gain access to our learning center with all AI learning materials. No coding experience necessary to begin.

AwesomeMath

- This program is an intensive summer camp for mathematically gifted students from around the globe. It is designed for bright middle and high school students who wish to hone their problem solving skills in particular and further their mathematics education in general. Many of our participants seek to improve their performance on contests such as AMC10/12, AIME, or USAMO.

Bold Summers in partnership with University of Pennsylvania's Perelman School of Medicine

- Grades 11,12
- Spend four weeks experiencing the University of Pennsylvania's Perelman School of Medicine intensive summer program designed for high school juniors and seniors interested in medical careers. Modeled after actual first year Penn Med classes, you'll gain exposure to the basics of medical training including practical experiences, simulations and live demonstrations. Plus, you'll live the life of a college student on Penn's campus, located in University City in Philadelphia, PA. Experience dorm life, campus living, attend classes, and make life-long friends!

[Burke Neurological Institute Neuroacademy](#)

- This hands-on training course will introduce students to fundamental biological based neuroscience at the molecular and cellular levels. Modern laboratory techniques will be explored while critical thinking is applied to the scientific process and bioinformatics. For five weeks in the summer, this program will provide students with the opportunity to learn and apply fundamental biological information and approaches across three modules. We believe that this enrichment program offers a unique gateway into potential research opportunities both at the Burke Neurological Institute and other institutions and has the potential to improve a student's preparation for college-level science curriculum.

[Einstein-Montefiore High School Summer Research Program](#)

- Ages 16-18
- The Einstein-Montefiore Summer High School Research Program introduces high school students to the excitement of leading-edge scientific research. It is our hope that because of this experience, students will begin to think about a career in science while still in high school. Students are selected from a pool of applicants for a five-week full-time summer research experience. Applicants must demonstrate academic excellence and be recommended by their high school science teacher and/or science chair.

[Health Careers Institute at Dartmouth](#)

- The Health Careers Institute provides opportunities for high school students from New Hampshire and beyond to explore different areas of health care as a discipline. We do this through experiential and academic endeavors. These experiences include visiting clinical settings such as Dartmouth-Hitchcock Medical Center (DHMC). Additionally, participants have many opportunities to converse with health care professionals including physicians, nurses, health care administrators, and research scientists.

[Inspirit AI](#)

- Artificial intelligence is revolutionizing every discipline and career, and our program focuses on the application and ethics of AI across domains such as music, ecology, medicine, robotics, and more. Our team of AI mentors guide students through projects in small groups of 5:1– with no prior CS experience required. We have had the opportunity to work with 7,000+ students from 65+ countries, and would be thrilled to work with your bright students.

[Inspirit AI - \(Online\)](#)

- AI Scholars Live Online is a 10-session (25-hour) artificial intelligence bootcamp that exposes high school students to fundamental AI concepts and guides them to build a socially impactful project. Taught by our team of graduate students from Stanford, MIT, and more, students receive a personalized learning experience in small groups with a student-teacher ratio of 5:1.

[Investin](#)

- Ages 12-18
- We are offering exclusive medical experience this summer in world-class hospitals and clinics across London: highly-immersive activities supervised by experienced doctors, dentists, vets, psychologists and more.

[Learn with Leaders - Future Doctors Program](#)

- Grades 8-12
- A Harvard Student Agencies, two-weekend program conducted over nine days, that provides high school students with the unique opportunity to delve into the pre-medical field. The program seeks to provide a one-of-a-kind experience for students to be confident and knowledgeable about the path to medical school. No prior experience is required in order to participate in this program.

[Learn with Leaders - Young Tech Leaders](#)

- A two-weekend program conducted over 10 days that will inspire you to become a life-long student of computer science. In addition to the overarching themes of abstraction and algorithmic thinking, students will learn the fundamental building blocks of procedural programming including variables, conditions, loops, functions, and file input/output. By the end of this course, you will be able to further study all that can be accomplished with Python, or bootstrap yourself into learning another language.

[Math Camp](#)

- Canada/USA Mathcamp is an intensive five-week-long summer program for mathematically talented high school students, designed to expose these students to the beauty of advanced mathematical ideas and to new ways of thinking. More than just a summer camp, Mathcamp is a vibrant community, made up of a wide variety of people who share a common love of learning and passion for mathematics. At Mathcamp, students can explore undergraduate and even graduate-level topics while building problem-solving skills that will help them in any field they choose to study.

[NASA Internships & Fellowships](#)

- NASA Internships are educational hands-on opportunities that provide unique NASA-related research and operational experiences for high school, undergraduate, and graduate students as well as educators. These internships integrate participants with career professionals emphasizing mentor-directed, degree-related, real-time world task completion. During the internship, participants engage in scientific or engineering research, development, and operations activities. Through these internships, participants leverage NASA's unique mission activities and mentorship to enhance and increase their professional capabilities and clarify their long-term career goals.

[National Security Agency STEM Program](#)

- Grade 12
- The National Security Agency's (NSA) Gifted and Talented Program is open only to high school seniors. The program is designed for students who have demonstrated an aptitude for engineering, math and science.

[New York Math Circle](#)

- Grades 9-12
- The Summer High School Math Circle is an academically intensive weekday program in the fall that runs for three weeks, five hours a day. A typical day consists of a class in the morning, followed by lunch, and a problem solving session in the afternoon. Instructors and teaching assistants are very friendly and helpful, and the atmosphere is open and collaborative.

[Rochester +Live](#)

- Ages 13 and up
- If you have a passion for certain subjects and would like to explore them before college, here is your chance to do so—with one of the world's leading research universities. The Rochester Pre-College Online Program offers courses designed for high school students ages 13 and up. Each course features engaging video by Rochester faculty and access to mentors. The program is available year-round, and the online format lets you study anywhere, anytime, at your own pace. This flexibility allows students to take multiple courses and discover a variety of academic areas of interest.

[Women In Engineering GAMES Camp](#)

- Grades 9-12
- Girls' Adventures in Mathematics, Engineering, and Science (GAMES) is an annual week-long camp, designed to give academically talented high school girls an opportunity to explore exciting engineering and scientific fields through demonstrations, classroom presentations, hands-on activities, and contacts with women in these technical fields. We present an advanced curriculum, use world-class instructional facilities, and provide an "away from home" experience at one of the best engineering schools in the world. Enrollment in the program is limited to ensure the quality of the academic experience. GAMES has a selective admissions process based on academic performance, a written essay and a teacher recommendation.

LEADERSHIP

[ACLU](#)

- From free speech to privacy and from mass incarceration to voting rights, students will become experts on the issues currently being confronted in the United States' courts and political arena. Through an intensive eight-day program in Washington D.C., students will learn directly from lawyers, lobbyists, community activists, and other experts working to defend the civil rights and liberties critical to a free and open society.

[Bank of America Student Leaders](#)

- Grades 11-12
- Every year, through our Student Leaders program we help connect 225 community-minded high school juniors and seniors to employment, skills development and service. They're awarded paid summer internships with local nonprofits such as Habitat for Humanity and Boys and Girls Clubs of America and participate in a national leadership summit in Washington, D.C. Student Leaders is part of our ongoing commitment to preparing young people for a brighter future.

[The Bronfman Youth Fellowship](#)

- Grade 11
- Every year, 26 intellectually adventurous North American teenagers are selected as Bronfman Fellows. The Fellowship begins with an immersive, all-expenses-paid summer in Israel and the U.S. Inspired by a diverse faculty of rabbis, educators, and artists, the pluralistic group of Fellows have the opportunity to explore a wide range of Jewish texts — from classic religious documents to contemporary Israeli and American voices — as well as art workshops, using them to spark conversations, engage with stimulating existential questions, and achieve a deeper understanding of themselves and one another. The Fellowship year continues with monthly virtual experiences and a Winter and Spring seminar in the United States, usually in the Northeast. Fellows continue their association with the Fellowship through our extraordinarily active, 1,500+ alumni community.

[Envision: National Youth Leadership Forums](#)

- Our career, technology, and leadership programs are developed by educators and subject-matter professionals. Using innovative tools and techniques, our activities mirror real-world challenges and facilitate critical thinking and communication among the groups. Our Advisors are highly trained teachers and subject-matter experts who love making a real impact—so much so that they come back year after year.

[LEAD Program](#)

- Grade 11
- The GSLI is a virtual and in person, residential program that will focus on developing a pipeline of high achieving diverse high-school students, LEADing for Life Scholars, by

providing an immersive learning opportunity that includes both industry and college experience.

[Learn with Leaders: Young Leaders in Innovation & Entrepreneurship Program](#)

- A two-weekend program that teaches students how to pitch their business ideas, perform market research, and generate investment. The program acts as an excellent preparation mechanism for launching an idea to execution.

[Lehigh University Iacocca Global Entrepreneurship Intensive](#)

- Students ages 15-17
- IGEI is a highly interactive program that combines real-world learning opportunities and intercultural experiences. Work on a group project solving a real problem for a U.S. or international client company. Learn about entrepreneurship, design thinking, global leadership and working within a culturally diverse group. Students will select from focus areas like Sustainability, Technology, Population Health, or Marketing and Branding, with the unique opportunity to pursue a “deep dive” within the entrepreneurship intensive. The curriculum includes faculty from across the university and throughout the worldwide Iacocca Institute network, as well as collaboration with Lehigh’s Baker Institute for Entrepreneurship, Creativity and Innovation; Lehigh@NasdaqCenter; and the Mountaintop Initiative.

[Mercy College Summer Leadership Academy](#)

- Grade 11
- Students experience college first-hand during this week-long, action-packed summer program. They learn about leadership and business careers from the Executive Faculty who have worked at top global companies.

[West Point Summer Leaders Experience](#)

- Grade 11
- This is a five-day long immersion in academic, military and social life for those considering the United States Military Academy. You will explore the United States Military Academy from all angles, including some intense military training and athletic activities. Participants will experience hands-on academic workshops, army PT workouts, obstacle courses, team building exercises, ethics discussions and cadet-led activities.
- Applications open on February 15, 2026

RESEARCH

[Hofstra University’s Summer Science Research Program](#)

- Hofstra University's Summer Science Research Program offers high school students opportunities in science research under the guidance of professionals in science and mathematics. For more than ten years, HUSSRP has provided selected research-oriented high school students the opportunity to work with our science faculty during the

summer in an on campus research program. The program runs from early July through mid August culminating in a science "poster session" in early Fall where students display the work they performed during the summer. Students will be selected for this program on the basis of their high school science experience, a personal interview and, above all, the high school teacher's recommendation.

Memorial Sloan Kettering Summer Student Program

- This eight-week program gives motivated and self-directed students a chance to conduct their own research in a state-of-the-art lab under the guidance of a post-doc, and then publicly present their results. A stipend is awarded upon completion of the program.

Project True

- Grades 10-11
- Project TRUE interns will spend the summer and fall conducting field research at the Bronx Zoo with a team of college students, scientists and educators from Fordham University and the Wildlife Conservation Society. Students will receive in-depth training and direct experience in planning, conducting and presenting research. For the summer, interns either receive a \$750 stipend OR are paid \$16/hour through SYEP if eligible to work with WCS's authorized provider. For the fall, interns will receive a stipend of about \$350. Requirements include attending all sessions in the summer (three days a week in July and August) and fall (14 Saturdays).

Simons Summer Research Program

- Grade 11
- The Simons Summer Research Program gives academically talented, motivated high school students the opportunity to engage in hands-on research in science, math or engineering at Stony Brook University. Simons Fellows work with distinguished faculty mentors, learn laboratory techniques and tools, become part of active research teams, and experience life at a research university.

INTERNSHIPS

Go Getter Internship

- The GO Project summer internship is an opportunity for high school students to learn and develop leadership skills while working with GO Project students in academic and/or enrichment classes. During the five-week GO Summer program, interns will be working as teaching assistants in one of our K-5th grade classrooms under the guidance of a Head Teacher or Enrichment Teacher. Interns will work in small groups or one-to-one within the classroom to help students complete projects, remain focused, and build confidence as learners. Interns will also be participating in rigorous daily professional development sessions where the Echoing Green book, Work on Purpose, will be used to help them discover and enhance their passions and talents to become change-making leaders in their community.

[Greenwich Audubon Center](#)

- Grades 10-11
- The Eco-Leadership Corps is an intern program for high school students to spend eight weeks working at our center in conservation leadership development while exploring and enhancing the 285-acre Greenwich Audubon Main Sanctuary, as well as several offsite locations of conservation interest. This intern program has three core components: Corps interns will study New England ecology with Audubon naturalists, improve bird habitat through hands-on learning of land stewardship practices, and develop educational programs for use in Audubon conservation programs throughout the region.

[The Metropolitan Museum of Art](#)

- Grades 10-11
- The Metropolitan Museum of Art offers an internship program designed to broaden an understanding of the Museum and deepen knowledge of art, meet members of the Museum staff, and work behind the scenes. An application process is required. Interns participating in this program will receive a stipend.

[Museum of Arts and Design](#)

- Grades 10-11
- Artslife is a paid summer internship program that combines art and design with leadership training, museum studies, and community engagement. Participants are introduced to museum careers such as Curatorial, Education, Development, Public Relations and Marketing, Visitor Services, Security, and Registrar. During the initial week, participants get to know one another and meet museum staff. During the remaining six weeks, participants work on collaborative projects, with Museum staff, local designers, and arts professionals who act as mentors. Students enjoy first-hand experience and the broadest possible exposure to ongoing museum activities, both public facing and behind-the-scenes.

[New York Historical Society](#)

- Grades 10-12
- Student Historians are interns who use the resources of The New York Historical to conduct in-depth research and share their scholarship through the production of creative digital projects that serve as public educational resources. Interns meet with professional staff to learn about the museum, library, digital humanities, and history fields; and work collaboratively with fellow students to develop their historical thinking, communication, and digital media skills. All interns will receive a \$700 stipend upon successful completion of the internship.

[PENCIL Internship Program](#)

- The PENCIL Internship Program is a competitive summer internship program for eligible New York City high school and college students. Students complete over 20 hours of career readiness training focused on essential skills like time management, resume-writing and interviewing; before being matched to a paid six week summer internship at a company, non-profit organization or government agency in New York City.

[Smithsonian Internships](#)

- Advance your education and career through the myriad of opportunities offered at the world's preeminent museum system.

EDUCATION, SPECIAL INTERESTS & ADVENTURE

[Abbey Road](#)

- Abbey Road summer study abroad programs have built a legacy of excellence, offering life-changing experiences for students worldwide. Our mission is to provide quality academic summer programs that facilitate cross-cultural understanding, personal growth and academic enrichment. Our curriculum developers and staff come from places such as Harvard, Yale, Stanford, Duke, Cambridge, La Sorbonne, the United Nations, the World Bank, the European Parliament and the State Department, just to name a few.

[Adventures Cross Country](#)

- For over 40 years, ARCC has offered extraordinary summer programs for teens. By traveling to locations rarely visited by tourists, we are able to provide unique, immersive, and educational experiences for our students. In 2026 we are excited to offer 15 unique summer programs (4 domestic/11 international), five spring gap programs (1 domestic/4 international), and eight fall gap programs (2 domestic, 6 international). All of our summer programs combine a series of service projects with adventure and cultural activities and take place between June and August, from two to four weeks.

[Broadreach](#)

- Broadreach summer programs are unforgettable, action-packed adventures for teens. We specialize in teen dive, sail, and marine biology, liveaboard voyages, and also offer land-based adventures with a focus on scuba diving, wildlife conservation, and veterinary medicine. Located in some of the world's most spectacular places, Broadreach teens engage in real-world, hands-on discovery under the guidance of experienced instructors. Our small group sizes allow students to connect with themselves and each other, building self-confidence and leadership skills.

[Bruce Beck & Ian Eagle Sports Broadcasting Camp](#)

- Ages 10-19
- The Sports Broadcasting Camp, founded in 2001 and now the nation's longest running sportscasting camp, has a new home. We are moving to Seton Hall University! We will utilize the state-of-the-art Pirate TV studios, multi-camera production studios, WSOU radio facilities and so much more. Our programs are a perfect mix of actually recording sports broadcast projects and learning the tricks of the trade from sportscast industry leaders. Campers learn essential skills including: writing and on-camera skills, teleprompter work, athlete interviews and control room experiences.

[CIEE](#)

- Up for the adventure of a lifetime? CIEE Global Navigator high school summer abroad programs take you outside your comfort zone for three-to-four weeks of unforgettable experiences. Have a blast exploring a different culture in 40 amazing destinations. You'll return home with new friends, new skills, a broader worldview, and maybe even earn college credits in high school! Program topics include: Arts & Culture, Business, Language, Leadership & Service, Social Change and STEM.

[EXPLO](#)

- Grade 9, students 12-14 years old
- The curriculum at EXPLO is unusual: It allows students to investigate subjects they're not likely to encounter during the school year. Our courses aren't for credit and are ungraded. They encourage students to step away from focusing on performance and evaluation, and instead follow their passions and interests. Programs include: Expo 360 (design your own program), Medical Rotations and Veterinary Rotations.

[Global Leadership Adventures](#)

- Students ages 14-18
- GLA's goal is to provide life-changing experiences that will cultivate a global perspective and open-mindedness in students that will ultimately inspire them to become great leaders and global thinkers and seek positive change in their own communities. Programs are offered in Africa, Asia, Europe and Latin America.

[GoBeyond](#)

- If you're searching for something more than just a typical summer trip, if you want to travel with real purpose, then GoBeyond. We go beyond ordinary high school travel programs and build cross-cultural service adventures perfectly geared to your interests and curiosities. Whether you're looking to contribute to authentic service projects, experience exhilarating adventure, or develop your language skills, GoBeyond will immerse you in a new culture where you can make a meaningful difference while on the journey of a lifetime.

[Jacob Burns Film Center](#)

- The Jacob Burns Film Center offers innovative programs in new media, documentary and fiction film production, screenwriting, animation, and so much more for students from

Pre-K through adulthood. JBFC media education programs engage over 5,000 teachers and students each year through viewing and creating experiences that explore how to be critical of what we watch and intentional with what we make. JBFC education programs and resources include Classroom to Screening Room, Professional Development, JBFC Kids, Lab Field Trips, and Summer Camps.

[Learn with Leaders](#)

- Learn with Leaders is a global education initiative that aims to empower school students worldwide. By connecting students with esteemed faculty, accomplished alumni, and experienced student mentors from IVY League universities and leading corporations, we provide unparalleled learning and mentoring opportunities in diverse fields from Research, Law, Finances, Medical, Leadership, Communication and even social impact. Programs include:
 - [Future Lawyers Program](#)
The Future Lawyers Program aims to orient students to the field of law. The program covers due process of law, the many careers in the world of law, the difficult-to-navigate requirements of the application to law school, and much more.
 - [Policy Making & International Relations Program](#)
The Policy Making and International Relations Program is an intensive two-week online program for high school students interested in politics. You will be taught by Harvard students on the topics of political theory, international relations, campaign management and hot topics in the US government. Throughout this program, students will also have the opportunity to form groups and tackle a policy problem that they are personally passionate about.

[National Geographic Youth Programs](#)

- At the National Geographic Society, our mission is to use the power of science, exploration, education and storytelling to protect and illuminate the wonder of our world. Ranging from Internships to Virtual Externships, online education resources, National Geographic Photo Camp, and more, we provide students with immersive and virtual learning experiences, inspiring the next generation of explorers, leaders, and solution seekers.

[NOLS](#)

- NOLS is a nonprofit global wilderness school that believes in the transformative power of leadership through wilderness education. We are dedicated to developing leaders by providing immersive experiences that challenge you to step beyond your comfort zone and unlock your full potential. Whether in remote backcountry settings or through courses near home, we equip people with the skills, resilience, and confidence to lead in all walks of life.

[Overland](#)

- Grades 9-12

- Overland is more than a summer program—it's a life-changing adventure. You'll explore incredible places with friends who are just as eager to push past the ordinary, from the Maine Coast to the Pacific Northwest, the Rockies to the Alps. And with phones left at home, you'll be fully present—connected to your group, your experience, and the unforgettable journey ahead.

[Oxbridge Academic Programs](#)

- Grades 8-12
- For over 40 years Oxbridge has organized summer study programs for students aged between 13 and 18. Our programs are held in some of the world's greatest academic and cultural centers, including Oxford, Cambridge, St Andrews, Paris, Montpellier, Barcelona, Salamanca, New York, Boston and Los Angeles, and offer a wide variety of courses, ranging from History, Medicine, Law, and Business to Art, Fashion, Photography, Psychology, and French and Spanish immersion, among many others. These courses are taught in small groups by leading university academics and creative professionals.

[Putney Student Travel](#)

- For 75 years, Putney has been the leader in student travel and educational summer opportunities—making memories and shaping lives. Our programs take students around the world to immerse themselves in local cultures, communities, and landscapes, instilling a passion for learning and discovery that are new to them. This spark often ignites lifelong interests, serving as a springboard for students to chart their future course.

[Rustic Pathways](#)

- Not only is Rustic Pathways a pioneer in providing quality travel and service programs for students and educators, but we're also redefining how to integrate education, travel, and philanthropy in a world where all people are connected by a shared humanity. At Rustic, our mission, vision, and values drive the way we run our programs, partner with local communities, and live our lives.

[SAI](#)

- SAI offers programs for high school and gap students to complete college-level coursework. High school programs are available in the summer, and provide a fully supervised unforgettable experience. Gap programs are available in the semester and academic year, and provide a gentle introduction to college-level life and courses. High school and gap programs provide strong on-site services to ensure that the proper support is in place for students to thrive.

[SEA Semester](#)

- SEA offers unique summer high school programs for current high school students as well as graduating seniors. Choose from a shore-based field program on our campus in Woods Hole, Massachusetts on beautiful Cape Cod, or an at-sea voyage aboard one of our sailing research vessels. Coursework includes lectures, discussions, laboratory activities, and field trips; all introducing students to the study of oceanography, the

history of humanity's relationship with the oceans, and modern maritime issues. At SEA, there's an adventure with a purpose waiting for every student interested in exploring the marine environment through hands-on, experiential, and community-based learning!

[Summer Discovery](#)

- With over 300 courses across a wide variety of fields of study, Summer Discovery is the leader in delivering pre-college summer academic enrichment programs for students from around the world. The Summer Discovery difference means our academic offerings are curated directly by the university academic departments. Courses are taught by passionate and accredited instructors hand-selected by the university. Our courses deliver dedicated outcomes, including a certificate of completion and a letter of recognition that students use to boost their college or academic portfolio.

[UCLA School of Theater, Film & Television](#)

- Media Parks: The Cinematic & Televisual History of Theme Parks
- Session A: July 19 - July 31, 2026
- In this two-week summer intensive, students explore the dynamic relationship between theme parks and their deep ties to film, television, and video games. From classic Disney rides to immersive cinematic universes, the program offers students a unique opportunity to gain firsthand insight into the creative and cultural forces driving themed entertainment.
- The program is a combination of lectures, screenings, discussions, guest speakers, and site visits to: Disneyland, Disney California Adventure, Universal Studios Hollywood, Warner Brothers Studios.
- As part of the program, students live in UCLA's dorms, immersing themselves in campus life while enjoying the beauty of UCLA and the energy of Los Angeles—the entertainment capital of the world.

[Villanova NROTC Summer Seminar](#)

- Grade 12
- Villanova University will be hosting a unique opportunity this summer for rising high school seniors to get a close up look at their well-regarded Naval Reserve Officer Training Corps (NROTC) program. This NROTC Summer Seminar will be a 4-night/4-day on campus experience to provide young men and women a better understanding of the balance between college life and the NROTC scholarship commitment. Topics and activities will include general military training, exposure to college classes and facilities, physical fitness, a trip to a historic landmark near Philadelphia, and workshops on best practices for both college and NROTC applications.

[Wilderness Adventures](#)

- Over 50 years of operation has provided WA the unique opportunity to travel in the most spectacular places with special operating permits across the globe. Explore a myriad of options from the coast of Maine to the Great Barrier Reef, from Alaskan glaciers to WA's backyard, the Tetons. These adventures offer an extended wilderness experience and are designed to give the participants a greater role in daily decision making.

[West Coast Connection](#)

- Since 1982, our summer programs for middle and high school students, aged 13-17, have brought teens together from around the world to share unforgettable experiences. Offering three distinct program styles in over 20 countries, we're able to provide the perfect summer program to fit your individual needs, whether you want to Travel, Learn, or Volunteer. We are confident that one of our 90+ programs will be your summer of a lifetime.

JOB OPPORTUNITIES

- [Breezemont Day Camp](#)
- [Elmwood Day Camp](#)
- [Goldfish Swim School](#)
- [Camp Kiwi](#)
- [Mohawk Day Camp](#)
- [Purchase Day Camp](#)
- [River Friends Day Camp](#)
